

Product Owner

– m/f/d – Full time –

We are an international software company based in Dresden that develops **innovative SaaS solutions for agriculture**. Our mission is to revolutionize efficiency, productivity, and sustainability in agriculture worldwide through intelligent, internet-based software.

We are looking for a Software Product Owner, to strengthen our dynamic team. In this role, you will be the central interface between stakeholders and our development teams. You will define the product vision, manage the Product Backlog, and ensure that our digital solutions, which are transforming the agricultural industry, consistently deliver value.

Your tasks

- Responsibility for the Product Backlog, its definition, and prioritization.
- Gathering and analyzing requirements from stakeholders and end-users.
- Communicating product requirements to the development team.
- Planning and coordination of releases and sprints.
- Ensuring that the delivered functionality meets the acceptance criteria.
- Adjusting the product strategy based on user feedback and market trends.

Your profile

- Experience as a Product Owner or in a similar role in software development.
- Solid knowledge of Agile methodologies (Scrum, Kanban).
- Strong communication and stakeholder management skills.
- Ability to translate complex requirements into actionable tasks.
- Analytical and solution-oriented thinking.
- Experience in international teams is an advantage.
- Knowledge of the agricultural sector or Ag-Tech products is a major plus.
- Fluent German and English skills.

What we offer

- Contribution to a company that is shaping the future of sustainable agriculture.
- A collaborative and international team culture.
- Flexible working in a modern office in Dresden.
- Professional development opportunities.
- Competitive salary and benefits.

Apply now and simply send your application, including your salary expectations, to Kristin by email!
